

Connect Students to Scholarships with the **PSAT/NMSQT** and **PSAT 10**

More Opportunities for More Students

The PSAT/NMSQT® is the qualifying test for the National Merit® Scholarship Program, an academic competition for recognition and scholarships. There's also over \$255 million in additional scholarships for qualified students from all major demographics. The awards—ranging from \$2,000 to full-tuition scholarships—are made possible through our partnerships with these 15 leading scholarship providers:

Access Expanded

Financial need should never limit a student's aspirations. Our partnerships have a real impact by clearing a path to college for students. **In 2017, students who took the PSAT/NMSQT or PSAT™ 10:**

Were connected to **\$7.4 million in scholarships**

Represented 6 out of 10 scholarship recipients from the Asian & Pacific Islander American Scholarship Fund

Were connected to and ultimately **submitted 16,875 applications** to the Hispanic Scholarship Fund

How It Works

When students take the PSAT/NMSQT or the PSAT 10 and say “Yes” to Student Search Service®, College Board connects them with our partner organizations, which could mean money for college.

“The Hispanic Scholarship Fund’s partnership with the College Board has allowed us to expand our recruitment efforts to students from all 50 states and from all economic backgrounds. This type of reach ensures that we find, select, and promote the success of America’s young leaders to new heights.”

FIDEL A. VARGAS, PRESIDENT & CEO, HISPANIC SCHOLARSHIP FUND

“Our partnership with the College Board has enabled APIASF to access thousands of Asian and Pacific Islander American student leaders who may not otherwise hear about our scholarship programs. ... this partnership empowers rising leaders to turn dreams of higher education into real-life benefits for themselves, their families, and communities.”

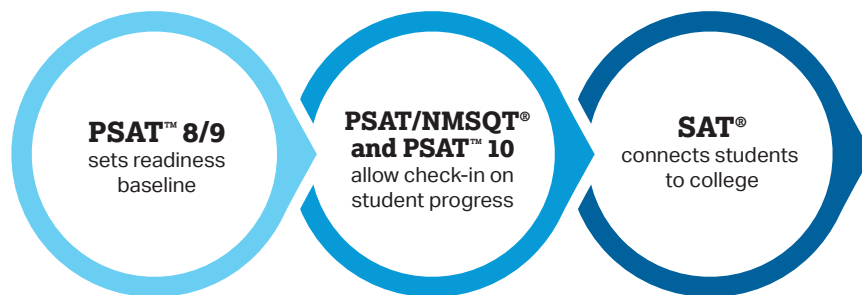

JEANNETTE SOON-LUDES, PH.D., DIRECTOR, APIASF SCHOLARSHIPS & PROGRAMS

“The College Board is an essential partner to the Jack Kent Cooke Foundation. By partnering with the College Board, we are able to locate more high-achieving, low-income students that have the ability to excel when given the resources to develop their talents.”

HAROLD LEVY, EXECUTIVE DIRECTOR, JACK KENT COOKE FOUNDATION

Complete the Suite

The PSAT/NMSQT and PSAT 10 are part of the SAT Suite of Assessments, an integrated system of tests that measure what students are learning in class and what they need to do well in college. In addition to scholarships, the suite connects students with free practice, fee waivers, and free college and career planning tools.
